

NovoConnect NC-X900 - the visual communication hub for the state-of-the-art meeting room

For high resolution wireless mirroring and seamless switch to 4K digital signage

NovoConnect NC-X900 is the flagship product in the range and transforms any existing screen to enable the highest quality wireless screen mirroring and collaboration during meetings. In addition, it offers a seamless switch to Digital Signage mode in 4K resolution before or after any meeting session. Wireless connection is simple, thanks to the NovoConnect App mirroring content from any device. The NC-X900 users can benefit from its dual-WiFi capacity with a dedicated band reserved for native Windows (Miracast), Mac OS and iOS (AirPlay), and Android (Google Cast) mirroring. Guests can use the optional USB LauncherPlus for direct WiFi connectivity from any laptop.

Features

- Instant 4K-to-4K mirroring and real time screen duplication
- Dedicated WiFi for Miracast mirroring (Win-10 computer)
- Power-over-Ethernet (PoE) to simplify large-scale deployment
- Network-based remote management, AES-256 encryption, dual network mode and password configuration to safeguard data security
- Dual-Video decoding 4K-to-4K allowing two video sources at the same time in Signage mode
- Unique Wireless Collaboration & Digital Signage solution
